HAND-MADE QUALITY

Artisan Craftmanship

All of our hair systems are hand-made by multi generational hair artisans. Our highly skilled Craftsmen train as an apprentice for 2 years before they can start making our hair systems. All of our human hair is meticulously chosen for specific healthy characteristics. These high standards ensure that each piece will be long-lasting and provide a undetectable natural blend.

HAIR REPLACEMENT EDUCATION

World-Class Instruction and Support

A world-class hair system education is just as important as the hair pieces themselves. What is even more important is that each stylist/ barber have the ongoing support after their initial certification class. This continual support will provide each certified stylist/ barber with the tools to ensure success.

SalonX Pro provides each stylist/ barber an extensive and comprehensive Hair Replacement Certification Class. All the tools, accessories and hair pieces will be included with each class registration. Each class will last 8 hours long and is an in-person class only. Due to the intricate details of the methods, virtual or online classes will not be offered.
